ABOUT ME

Passionate developer living in Dhaka with over 1.9 years of solid experience dedicated to creating web applications and mobile application. Specializing in Reactjs, React Native and laravel development. Self-motivated, responsible, creative, team-worker, and holds a Bachelor's degree in Computer Science & Engineering. Looking forward to a promising career in the position of Software Engineer/Developer.

EXPERIENCE

- **TFP Solutions Bangladesh Ltd. (Sep. 2021 - present)**

The front end of the application has been created through attractive visual design. Software testing and troubleshooting, debugging and upgrading software to ensure responsiveness and efficiency. Pixel perfect implementation of user interface.

Integrating front end UI with built in API. Meet both technical and consumer needs. Created and maintained React Native components, screens and features for mobile apps.

Collaborated with other developers to implement new features in a manner consistent with existing codebase conventions.
